## **A Great Turnout for a Greener Future!**

*"It was great to hear from two different homeowners who have installed heat pumps. I also enjoyed the guest speakers who had more detailed knowledge about heat pumps and what to think about when planning to install a heat pump. I also appreciate the panel experts debunking the information that you need to have a furnace after installing a heat pump."*

We were thrilled to see more than 70 local homeowners join us at the Collingwood Library on October 22 for our *Better Homes, Greener Future* heat pump seminar. Attendees heard firsthand from neighbours who've made the switch, learned how heat pumps and home energy audits work, and asked great questions during an engaging Q&A. Feedback showed strong satisfaction with the event, and the committee is using your ideas to plan future seminars.

## Big Things Ahead — and We Need Your Help!

We're looking for volunteers to join our *Better Homes, Greener Future* Program Committee as we plan for 2026. We've already started planning and have lots of ideas, but we need to know we have the capacity to make them happen. **No special skills or time commitment**, just an interest in working with like minded CCAT volunteers in a variety of ways.

Projects for 2026 include:

- Expanding our *Heat Pump Awareness Project*
- Launching a *New Home Build Awareness Campaign* for builders and developers
- Creating a directory of local green contractors and energy advisors
- Developing a new *Home Energy Seminar Series*

- Supporting a *Green Home Location Project* in partnership with the Town of Collingwood

*If you'd like to get involved, we'd love to have you on board!*

# GI ING TUESDAY

## Mark Your Calendars: Giving Tuesday is Coming

We're excited to launch our Giving Tuesday fundraising campaign on **December 2!**

This year, we have some special plans to celebrate and thank our supporters who help make our work possible. Stay tuned for updates on the campaign and ways to get involved in supporting a greener, healthier Collingwood.

---

Collaboration in action! Climate Action Teams from across South Georgian Bay met this October to advance plans for a regional climate network that will strengthen and amplify local impact. Stay tuned for more updates in early 2026!
